Profile Summary

Senior Software Engineer with over 5 years of experience in leading frontend development teams and architecting micro-frontend frameworks. Proficient in React, TypeScript, and modern web technologies. Experienced in collaborating with cross-functional teams to deliver high-quality, innovative web solutions. Adept at both frontend and backend development, with a focus on continuous improvement and code quality.

Work Experience

April 2021 - Now

(3 years 6 months)

Senior Software Engineer

EPAM. Georgia

I have extensive experience working on three diverse projects, each involving a cross-functional team of developers, designers, QA engineers, and project management professionals. In my most recent project, I took on a leadership role as the front-end development team lead, overseeing three developers.

- Led a team of three developers in architecting a micro-frontend framework using the module federation plugin, enhancing component reuse across multiple client teams.
- Partnered with CTO and Senior Solutions Architect to define project objectives, ensuring alignment with stakeholders and streamlining feature rollout.
- Enhanced web app performance by 100% and reduced build size by 300% by refining webpack configurations and minimizing bundle size.
- Integrated complex animations and interactive elements into the web applications, enhancing user engagement and visual appeal.
- Led transition to React-Testing Library, reaching 90% unit test coverage and boosting code reliability by identifying and resolving critical bugs.
- Mentored three junior developers, enhancing their technical skills and contributing to talent acquisition by assessing 10+ candidates in the hiring process.

Nov 2020 - Feb 2021

(3 months)

Full Stack Developer

Guscom. Russia, Kazan

- Built a QR code-based application to streamline public transport payments, improving transaction efficiency for 1,000+ daily users.
- Enhanced UI and refactored legacy code to enhance user experience and boost code maintainability by reducing technical debt.
- Worked with JavaScript, HTML5, CSS3, and backend technologies

Jun 2020 – Nov 2020

(6 months)

.NET Developer(Full Stack)

A2Soft. Russia, Kazan

- Used .NET Core, React/React-Native, ExtJs, and SQL to support and maintain projects.
- Designed the structure of the configuration JSON file for a universal web page parser.
- Involved in backend development and optimization.

Aug 2019 – Apr 2020

(8 months)

Full Stack Developer

Webim.ru. Russia, St. Petersburg

- Designed the Webhook for the company's web services to provide messenger(Telegram, Riot.im) services with near real-time information using HTTPS requests.
- Offered a full-time role after a 1-month internship
- Develop features for applications from scratch, frontend/backend features, and bug fixing. (Python/Django, React/Redux, JavaScript, HTML, CSS, Postgresql, Django REST API, SQLAlchemy ORM, CherryPy, Web Security, Unit Tests)

Education

Apr 2020 – Nov 2020

42 school student

21 school in Kazan, Russia

- Developed my programming skills, focusing on C language, through a unique peer-to-peer and project-based education approach.

Sep 2015 – Jun 2019

Bachelor in Software Engineering

Kazan (Volga Region) Federal University, Kazan (Russia)

Cumulative GPA: 3.61

- ASP.NET Web project work, including web design and user interface. MVC experience
- Twice received an increased academic scholarship for merit in studies
- Participation in international scientific conferences

Personal Skills

Job-related skills

Core Skills: JavaScript, TypeScript, React, React Native

Frontend: React (Redux, MobX), HTML, CSS, Sass, Webpack, Micro Frontend (Module Federation), GSAP, Animation, Storybook, Vue, Next.js, Tailwind, Bootstrap

Backend: Node.js, Express, .Net Core, Python, Django, Postgresql, REST, SQLAlchemy ORM, Cherryypy

Cloud & DevOps: AWS S3, Azure, Kubernetes, CI/CD, Docker

Testing: Jest, React Testing Library, Enzyme, xUnit, Playwright, E2E, Selenium

Other Skills: Git, Sitecore, Linux, ADO/Jira, AWS S3, Photoshop, Illustrator, Web Design, UI, Pandas, Photography

Language

Russian: Native

English: Fluent (IELTS 6.5 - B2)

German: Beginner (A1)

Additional Information

Activity and awards

2019 - 3rd Place in Hackathon "Intelligent transport systems and elements of situational centers"

2019 - Volunteer at WorldSkills

2018 - Volunteer at the FIFA World Cup

2017 - 19th World Festival of Youth and Students

2017 - The 9th Student Scientific Conference On Mathematical Modelling And Information Technologies

2017 - Second International Workshop on Language, Music, and Computing
